

LERM CATALOGUE - LATEST NEWS

PLUS 2A OWNERS

If you have bought a CONVERSION UTILITY, TAPE UTILITY, or a TRANSPACK from us and you own a SPECTRUM PLUS 2A, then you should regard your SPECTRUM as being a PLUS 3, as they are the SAME, except that the PLUS 2A has a TAPE deck, and the PLUS 3 a disc drive.

MICRODRIVE CARTRIDGES - NO LONGER AVAILABLE.

SORRY, BUT THESE ARE NOT GOING TO BE MADE ANY MORE. THE COMPANY THAT MANUFACTURES THEM CAN'T GET THE TAPE FROM THE GERMAN MANUFACTURER SO WE CAN'T SUPPLY THESE ANY MORE. YOU WILL NEED TO LOOK AFTER YOUR CARTRIDGES AND MAKE THE BEST USE OF THEM - NOW EVEN MORE IMPORTANT FOR YOU TO HAVE OUR MICROMATE PROGRAM - STILL AVAILABLE ON CARTRIDGE.

PLUS 3 DISCS

YES THEY ARE EXPENSIVE - £3 EACH IN MANY HIGH STREET STORES, BUT WE CAN OFFER THEM AT ONLY £2.30 EACH POST FREE IN THE UK (+£1 FOR OTHERS), AGAIN WITH A MINIMUM ORDER OF 4.

IF YOU OWN A MICRODRIVE OR A PLUS 3 THEN WE STRONGLY ADVISE YOU TO TRY OUR MICROMATE/PLUS3MATE. WE HAVE HARDLY EVER GIVEN A REFUND ON THESE, AND HAVE RECEIVED MANY COMPLIMENTS ABOUT BOTH PROGRAMS. MANY COMMENT THAT THEY FIND THEM VITAL, AND COULDN'T BE WITHOUT THEM! RECENTLY WE HAVE A PLUS3 DISC THAT WOULDN'T "CAT" OR LOAD A PROGRAM, BUT PLUS3MATE REPAIRED IT SO ONLY ONE FILE WAS LOST! TRY FOR YOURSELF - WITH OUR SOFTWARE MONEY BACK GUARANTEE YOU CAN'T LOSE!!!

HARDWARE BY ROMANTIC ROBOT

You can get more information on these products by sending us an SAE. The good news from LERM is that we can supply you with any of the products from Romantic Robot at their NORMAL retail prices BUT by purchasing from us we offer the following extra SPECIAL DEALS.

1. You get ABSOLUTLEY FREE 2 pieces of SPECTRUM software. The first is called VRCODE. This can be used to reduce the size of a BASIC program by changing all numbers (e.g the number six becomes VAL"6"). It can also get rid of all REM statements.

The SECOND free Spectrum program is called SINGLESTEP, and is used to see how machine code works. It will step through some code and show you exactly what effect it has on all the registers in the Z80 processor. It INCLUDES a DISASSEMBLER, and is part of our HIGHLY RATED TOOLKIT program.

2. Having bought a Romantic Robot device from us, you can claim a discount of £1 on our CONVERSION UTILITY or TRANSPACK programs, provided that you purchase within ONE MONTH of us receiving your hardware order. See below for more details.

You get exactly the same service as if you bought your device directly from Romantic Robot. Any faults - send it back directly to them - your guarantee is just the same as direct purchase.

MULTIFACES

Multiface One (for 48k Spectrums), Multiface 128 (for 128k Spectrums), and Multiface 3 (for +3 or 2A), are designed for EASY transfer of programs from TAPE directly to your DRIVE SYSTEM (disc, waba, micro-drive, etc). They can't manage all programs, but our CONVERSION UTILITY will manage many of those that MULTIFACES can't cope with. Our TRANSPACK program with our INFORMATION BOOKS would provide you with the most comprehensive TAPE to DRIVE system together with a Multiface that is currently available.

MULTIFACE PRICES

Multiface 1 (48k Spectrum mode only) £39.95

Multiface 128 £44.95 (NOT +3) - inc bus

Multiface 3 (+3/2A) £44.95

Multiface 3 + bus £49.95

Multiface 128 - for Disciple/+D - £44.95

Add £1 postage in UK + Europe, £2 for others

Cheques, Eurocheques etc. payable to LERM (we don't accept credit cards)

A "bus" is a through-port. In other words if you have a "bus" it will allow you to add other hardware devices on the back of the MULTIFACE.

OTHER HARDWARE - by ROMANTIC ROBOT.

Multiprint - the "printer" interface - £39.95 without bus, +£5 with bus. Allows you to connect your Spectrum (48/128/+2) to a normal printer, plus MUCH MORE !

Both items with same postage charges as above.

Citizen 3.5inch disc drives with power supply - can be used with +D and DISCIPLE interfaces - only £85 (+£3 postage in UK, £4 others). A superb price for HIGH QUALITY drives.
